PURE AIR

VISIONAIR BLUE LINE

SMOKEFREE
SPECIAL

With the VisionAir BlueLine SmokeFree you clean the air in smoking rooms. The SmokeFree Special has an electrostatic filter and is professionally cleaned regularly by our maintenance department. Depending on the content of the room you can opt for a VisionAir Blue Line 1 or a VisionAir Blue Line 2. Both can be mounted to or in the ceiling. The VisionAir Blue Line 1 can also be mounted on the wall and on a movable display.

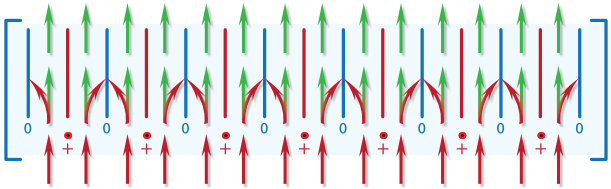
FILTERPRINCIPE

The VisionAir Blue Line SmokeFree contains a unique filter system, which cleans indoor air in three phases.

Phase 1: the **pre filter Blue Line** captures the bigger particles of dust and other polluting items such as hairs and skin flakes.

Phase 2: the **EM Blue Line filter**. Removes air pollution to the smallest fractions. Particles are electrically charged and attach to the filter plates.

The ElectroMax filter in operation:



Phase 3: the **AC Pleated final filter** is a special activated carbon filter that captures odours and tobacco smoke.
